Рекомендовано вченою радою Полтавського державного медичного університету як навчальний посібник для іноземних студентів – здобувачів вищої освіти ступеня магістра, які навчаються за спеціальностями: 221 “Стоматологія”, 222 “Медицина” у закладах вищої освіти МОЗ України” (протокол № 2 від 23 червня 2021 року)

Authors:

Vazhnycha O. M. – professor of the Department of Experimental and Clinical Pharmacology of Poltava State Medical University, MD, PhD, Professor.

Deviatkina T. O. – professor of the Department of Experimental and Clinical Pharmacology of Poltava State Medical University, MD, PhD, Professor.

Dvornyk V. M. – First vice-rector, professor of the Department of Orthopedic Dentistry and Implantology of Poltava State Medical University, MD, PhD, Professor.

Lutsenko R. V. – Head of the Department of Experimental and Clinical Pharmacology of Poltava State Medical University, PhD, Associated Professor.

Deviatkina N. M. – associated professor of the Department of Experimental and Clinical Pharmacology of Poltava State Medical University, PhD, Associated Professor.

Reviewers:

Shtrygol S. Yu. – Head of the Department of Pharmacology and Pharmacotherapy of National University of Pharmacy, Kharkiv, MD, PhD, Professor.

Zhylyuk V. I. – Head of the Department of Pharmacology and Clinical Pharmacology of Dnipro State Medical University, MD, PhD, Professor.

Kostenko V. O. – Head of the Department of Pathophysiology of Poltava State Medical University, MD, PhD, Professor.

Neporada K. S. – Head of the Department of Biological and Bioorganic Chemistry of Poltava State Medical University, MD, PhD, Professor.

Bieliaieva O. M. – Head of the Department of Foreign Languages with Latin Language and Medical Terminology of Poltava State Medical University, PhD, Associated Professor.

Pharmacology : study guide. Tutorial for students = Фармакологія.

ISBN 978-966-382-908-1

A study guide for students of medical and dental faculties of higher medical establishments of Ministry of Health of Ukraine has been written according to Pharmacology syllabus and addressed to English-speaking students. The study guide contains items, cases, tasks on prescribing, and study experiments according to main chapters of Pharmacology.

УДК 615(075)

Table of contents

Abbreviations	8
Preface	10
CHAPTER 1. General prescription	11
1.1. Dosed medicinal forms	12
<i>One-answer tests</i>	12
<i>Tasks on prescribing of dosed medicinal forms</i>	16
1.2. Non-dosed medicinal forms.....	17
<i>One-answer tests</i>	17
<i>Tasks on prescribing of non-dosed medicinal forms</i>	21
CHAPTER 2. General pharmacology	23
2.1. Pharmacokinetics.....	25
<i>One-answer tests</i>	25
<i>Cases</i>	29
<i>Instruction to the experimental work</i>	32
2.2. Pharmacodynamics	32
<i>One-answer tests</i>	32
<i>Cases</i>	37
<i>Instruction to the experimental work</i>	40
CHAPTER 3. Drugs influencing afferent innervation	41
3.1. Drugs inhibiting afferent innervation.....	43
<i>One-answer tests</i>	43
<i>Cases</i>	47
<i>Instruction to the experimental work</i>	50
3.2. Drugs stimulating afferent innervation.....	51
<i>One-answer tests</i>	51
<i>Cases</i>	55
<i>Instruction to the experimental work</i>	58
CHAPTER 4. Autonomics	59
4.1. Cholinergic agonists.....	60
<i>One-answer tests</i>	60
<i>Cases</i>	64
<i>Instruction to the experimental work</i>	67
4.2. Cholinergic antagonists.....	67
<i>One-answer tests</i>	67
<i>Cases</i>	72
<i>Instruction to the experimental work</i>	74

4.3. Adrenergic agonists	75
<i>One-answer tests</i>	75
<i>Cases</i>	80
<i>Instruction to the experimental work</i>	82
4.4. Adrenergic antagonists	83
<i>One-answer tests</i>	83
<i>Cases</i>	88
<i>Instruction to the experimental work</i>	90
4.5. Histaminergic and serotonergic drugs	91
<i>One-answer tests</i>	91
<i>Cases</i>	95
CHAPTER 5. CNS inhibitors	99
5.1. General anesthetics. Ethyl alcohol	100
<i>One-answer tests</i>	100
<i>Cases</i>	104
<i>Instruction to the experimental work</i>	107
5.2. Opioid (narcotic) analgesics	108
<i>One-answer tests</i>	108
<i>Cases</i>	112
5.3. Non-opioid (non-narcotic) analgesics	115
<i>One-answer tests</i>	115
<i>Cases</i>	120
<i>Instruction to the experimental work</i>	122
5.4. Hypnotics, antiepileptics, antiparkinsonian drugs	123
<i>One-answer tests</i>	123
<i>Cases</i>	128
<i>Instruction to the experimental work</i>	131
CHAPTER 6. Psychoactive drugs	132
6.1. Neuroleptics, anxiolytics, sedatives, lithium salts	133
<i>One-answer tests</i>	133
<i>Cases</i>	137
<i>Instruction to the experimental work</i>	140
CHAPTER 7. CNS stimulants	144
7.1. Antidepressants	145
<i>One-answer tests</i>	145
<i>Cases</i>	149

7.2. Psychomotor stimulants and analeptics.....	152
<i>One-answer tests</i>	152
<i>Cases</i>	157
<i>Instruction to the experimental work</i>	159
7.3. Nootropics, adaptogens, anorexigens.....	160
<i>One-answer tests</i>	160
<i>Cases</i>	164
CHAPTER 8. Cardiovascular drugs	168
8.1. Inotropic drugs.....	169
<i>One-answer tests</i>	169
<i>Cases</i>	173
<i>Instruction to the experimental work</i>	176
8.2. Antianginal drugs.....	176
<i>One-answer tests</i>	176
<i>Cases</i>	181
<i>Instruction to the experimental work</i>	184
8.3. Antiarrhythmic drugs.....	185
<i>One-answer tests</i>	185
<i>Cases</i>	189
8.4. Antihypertensive drugs. Hypertensive preparations	192
<i>One-answer tests</i>	192
<i>Cases</i>	196
8.5. Anti-atherosclerotic drugs	199
<i>One-answer tests</i>	199
<i>Cases</i>	204
CHAPTER 9. Drugs acting on blood system	207
9.1. Drugs acting on blood coagulation and fibrinolysis	208
<i>One-answer tests</i>	208
<i>Cases</i>	212
<i>Instruction to the experimental work</i>	215
9.2. Hematinics. Drugs acting on erythropoiesis	215
<i>One-answer tests</i>	215
<i>Cases</i>	220
9.3. Drugs acting on leukopoiesis and immunity. Anticancer drugs.....	223
<i>One-answer tests</i>	223
<i>Cases</i>	228

CHAPTER 10. Drugs acting on other effector organs	231
10.1. Drugs acting on respiration	232
<i>One-answer tests</i>	232
<i>Cases</i>	236
10.2. Drugs acting on digestion system	239
<i>One-answer tests</i>	239
<i>Cases</i>	244
<i>Instruction to the experimental work</i>	246
10.3. Drugs acting on kidneys (diuretics). Antigout drugs	247
<i>One-answer tests</i>	247
<i>Cases</i>	252
<i>Instruction to the experimental work</i>	254
10.4. Drugs acting on myometrium	255
<i>One-answer tests</i>	255
<i>Cases</i>	259
CHAPTER 11. Drugs acting on metabolism	263
11.1. Hormonal preparations of peptide structure	264
<i>One-answer tests</i>	264
<i>Cases</i>	268
<i>Instruction to the experimental work</i>	271
11.2. Hormonal preparations of steroidal structure	272
<i>One-answer tests</i>	272
<i>Cases</i>	276
<i>Instruction to the experimental work</i>	279
11.3. Vitamin preparations	279
<i>One-answer tests</i>	279
<i>Cases</i>	284
<i>Instruction to the experimental work</i>	287
11.4. Enzymes and anti-enzymes.	287
<i>One-answer tests</i>	287
<i>Cases</i>	292
<i>Instruction to experimental work</i>	294
CHAPTER 12. Antimicrobials. Antivirals. Antiparasitic drugs	295
12.1. Antiseptics and disinfectants	296
<i>One-answer tests</i>	296
<i>Cases</i>	300
<i>Instruction to the experimental work</i>	303

12.2. Antibiotics – cell wall synthesis inhibitors	303
<i>One-answer tests</i>	303
<i>Cases</i>	308
12.3. Antibiotics – protein synthesis inhibitors.	311
<i>One-answer tests</i>	311
<i>Cases</i>	315
<i>Instruction to the experimental work</i>	318
12.4. Sulfonamides. Synthetic antimicrobials	
of different structure. Antifungals.....	318
<i>One-answer tests</i>	318
<i>Cases</i>	323
<i>Instruction to the experimental work</i>	326
12.5. Antispirochetal and antimycobacterial drugs. Antiviral preparations	326
<i>One-answer tests</i>	326
<i>Cases</i>	331
12.6. Antiprotozoals.....	334
<i>One-answer tests</i>	334
<i>Cases</i>	338
<i>Instruction to the experimental work</i>	341
12.7. Anthelmintics	342
<i>One-answer tests</i>	342
<i>Cases</i>	346
<i>Instruction to the experimental work</i>	349

CHAPTER 13

PHARMACOTHERAPY

OF ACUTE POISONINGS. Antidotes	350
<i>One-answer tests</i>	351
<i>Cases</i>	355
<i>Instruction to the experimental work</i>	358
Answers	359
Selected references	366

Навчальний посібник для студентів медичних та стоматологічних факультетів вищих медичних закладів освіти МОЗ України написано відповідно до навчальної програми “Фармакологія” та адресовано англomовним студентам. Навчальний посібник містить матеріал, клінічні кейси, завдання щодо призначення та експериментальні дослідження щодо основних розділів фармакології.

Навчальне видання
