

HUMAN ANATOMY

Textbook for students of higher medical institutions

The third edition

Vinnytsia
Nova Knyha
2020

УДК 611(075.8)
А64

*Recommended by the Academic Board of I. Horbachevsky Ternopil State Medical University
as a textbook for students of Higher Medical Educational Institutions
(report No 12 on 30th of October 2018)*

*Рекомендовано вченою радою Тернопільського державного медичного університету імені І. Горбачевського
як підручник для студентів вищих медичних навчальних закладів (протокол № 12 від 30.10.2018 р.)*

Authors:

Viktor G. Cherkasov – Doctor of Medical Science, Professor, Head of the Department of Human Anatomy of Bogomolets National Medical University;

Illya Ye. Herasymiuk – Doctor of Medical Science, Professor, Head of the Department of Human Anatomy of I. Horbachevsky Ternopil National Medical University;

Andrii S. Holovatskyi – Doctor of Medical Science, Professor of the Department of Human Anatomy and Hystology of Uzhhorod National University;

Oleksandr I. Kovalchuk – Doctor of Medical Science, Head of the Department of Anatomy and Pathophysiology of Educational and Scientific Centre "Institute of Biology and Medicine" of Taras Shevchenko National University of Kyiv;

Borys Ya. Reminetskyi – PhD, Associate Professor of the Department of Human Anatomy of I. Horbachevsky Ternopil National Medical University.

Reviewers:

Kholodkova O. L. – Doctor of Medical Science, Professor, Head of the Department of Human Anatomy of Odessa National Medical University;

Mateshuk-Vatseba L. R. – Doctor of Medical Science, Professor, Head of the Department of Normal Anatomy of Danylo Halytsky Lviv National Medical University;

Tykhola V. O. – Doctor of Medical Science, Professor, Head of the Department of Human Anatomy of Vinnytsia National Pirogov Memorial Medical University.

Compiler-editors of illustrations – *Yanchyshyn A. Ya, Lozko Yu. S.*

Анатомія людини = Human Anatomy : textbook / Cherkasov V. G.,
A64 Herasymiuk I. Ye., Holovatskyi A. S., Kovalchuk O. I. [et al.]. – 3th ed. –Vin-
nytsia : Nova Knyha, 2020. – 472 p.
ISBN 978-966-382-841-1

This illustrated edition is convenient to use: the material is divided into sections by systems. An overview of bones, joints, muscles, tissues, organs, blood supply and innervation of organs is given. Color illustrations add clarity. The book is intended for a wide range of readers, will also be useful to English-speaking students of medical universities and colleges, and professionals working in the medical industry.

УДК 611(075.8)

Це ілюстроване видання зручне у використанні: матеріал поділений у секції за системами. Висвітлено такі питання з анатомії: кістки, суглоби, м'язи, тканини, органи, кровопостачання та іннервація органів. Кольорові ілюстрації додають наочності. Ця книга призначена для широкого кола читачів. Буде корисне для англomовних студентів медичних університетів та коледжів, а також професіоналам, які працюють у галузі медицини.

CONTENT

ABBREVIATED FORM	8
PREFACE	9
Subject of anatomy, its methods and terminology ..	10
Short essay on history of anatomy	12
Anatomy of the Ancient World, the Middle Ages and the Renaissance	12
Development of anatomy in Ukraine (from Kyiv Rus to the present)	14
GENERAL PART	
Overview of cells	19
Plasma membrane	19
Membrane Transport	21
Cytoplasm	22
Organelles	22
Nucleus	27
Cell life cycle	28
Developmental aspects of cells	30
Tissues	31
Epithelia	31
<i>Special Characteristics of Epithelia</i>	31
<i>Classification of Epithelia</i>	32
<i>Simple Epithelia</i>	33
<i>Stratified Epithelia</i>	33
<i>Epithelial Surface Features</i>	35
<i>Basal Feature: The Basal Lamina</i>	36
<i>Apical Surface Features: Microvilli and Cilia</i>	37
Connective Tissue	38
<i>Special Characteristics of Connective Tissues</i> ..	38
<i>Structural Elements of Connective Tissues</i>	38
<i>Ground Substance</i>	39
<i>Classification of Connective Tissues</i>	39
<i>Cartilage</i>	41
<i>Bone</i>	42
<i>Covering and Lining Membranes</i>	43
<i>Serous membranes, or serosae</i>	43
Muscle Tissue	43
Nervous Tissue	44
Tissue response for injury	46
Repair	46
Prenatal development	48
Stages of prenatal development	48
<i>Basic body plan</i>	48
<i>Embryonic period</i>	48
Basic body plan	53
<i>Shape, size of the human body</i>	53
<i>Anatomical terminology</i>	53

BONES; SKELETAL SYSTEM (OSTEOLOGY)

Skeletal structure	59
Cartilages	59
<i>Location and Basic Structure</i>	59
<i>Types of Cartilage</i>	59
Bones	61
<i>Bone Markings and Formations</i>	61
<i>Functions of Bones</i>	62
<i>Bone Tissue</i>	62
<i>Classification of Bones</i>	63
<i>Microscopic Structure of Bone</i>	65
<i>Bone development and growth</i>	66
Axial skeleton	70
Vertebral column	70
<i>Regions and Normal Curvatures</i>	71
<i>Ligaments of the Spine</i>	71
<i>General Structure of Vertebrae</i>	72
<i>Regional Vertebral Characteristics</i>	72
The thoracic cage	76
Skull	80
Gross Anatomy of the Skull	81
Cranial Bones	82
Facial Bones	88
Special Parts of the Skull	91
<i>Skull as whole</i>	92
<i>Peculiarities of foetal skull</i>	94
Appendicular skeleton	96
Upper limb bones	96
<i>The pectoral girdle</i>	96
<i>Free part of upper limb</i>	97
<i>Hand</i>	99
Lower limb bones	101
<i>The pelvic girdle</i>	101
<i>Free part of lower limb</i>	104
Anatomical features of changes in the skeleton ..	109
The appendicular skeleton throughout life	109
The axial skeleton throughout life	109
JOINTS; ARTICULAR SYSTEM (ARTHROLOGY)	
Classification of joints	112
Fibrous joints	112
<i>Sutures</i>	112
<i>Syndesmoses</i>	113
<i>Gomphoses (dento-alveolar syndesmosis)</i>	113
Cartilaginous joints	113

Synchondroses	113
Symphyses	113
Synovial joints	113
Synovial joints in general	114
General structure of synovial joints	114
General Function of Synovial Joints	115
Articular Surfaces	115
Ligaments	115
Muscle Tone	116
Movements allowed by synovial joints	117
Special Movements	117
Synovial Joints Classified by Shape	118
Selected synovial joints	119
Sternoclavicular Joint	119
Temporomandibular Joint	119
Shoulder (Glenohumeral) Joint	120
Elbow Joint	120
Wrist Joint	120
Hip Joint	121
Knee Joint	121
Ankle Joint	124
Anatomical features of changes in the joints. . .	131
Disorders of joints	131
Sprains	131
Dislocations	131
The joints throughout life	131

MUSCLES; MUSCULAR SYSTEM (MIOLOGY)

Overview of muscles	134
Arrangement of fascicles in muscles	134
Lever systems: bone-muscle relationships	134
Scheme based on embryonic development	136
Muscle actions and interactions	137
General structure of skeletal muscles	141
Major skeletal muscles of the body	141
Muscle compartments of the limbs	141
Muscles of the back	142
Superficial muscles	142
Deep muscles of the back	144
Muscles of suboccipital region	146
Fasciae of the back	146
Muscles of the thorax	147
Superficial muscles group of the thorax	147
Muscles that attach the scapula to the trunk	148
Deep muscles group of the thorax	148
Diaphragm	149
Fascia of the thorax	151

Muscles of the abdominal wall	152
Muscles of anterior abdominal wall	152
Sheath of rectus abdominis muscle	153
Inguinal canal (canalis inguinalis)	153
Superficial Fascia	153
Transversal fascia	153
Muscles of the head	156
Muscles of mastication	156
Muscles of Facial expression	156
Fascia of the head	158
Muscles of the neck	160
Superficial muscles of the neck	160
The suprahyoid muscles of the neck	162
The infrahyoid muscles of the neck	162
Deep muscles of the neck. Lateral group	163
Deep muscles of the neck. Medial group	163
Topography of the neck regions	164
Neck triangles	164
Fasciae of the neck	164
Muscles of upper limb	166
Muscles of the shoulder girdle	166
Muscles of the free upper limb	166
Muscles of the arm	166
Anterior group	169
Posterior group	169
Muscles of forearm	169
Anterior group	169
Posterior group of muscles of the forearm	172
Muscles of the hand	173
Axillary cavity	173
Muscles of the lower limb	176
Pelvic muscles	176
Internal group	176
External group	176
Muscles of the free lower limb	178
Muscles of the thigh	178
Foot Muscles	182

SPLANCHNOLOGY

Alimentary (digestive) system	187
Digestive Processes	188
Abdominal Regions	188
Peritoneum	190
Peritonitis	191
Anatomy of the alimentary canal	191
Histology	191
Mucosa	191
Submucosa	192
Muscularis wall	192

Serosa	192	<i>Blood Supply and Innervation of the Lungs</i>	234
<i>Innervation of Smooth Muscle and Glands</i>	193	<i>Ventilation</i>	238
Mouth	194	The respiratory system throughout life	238
<i>Histology of the Mouth</i>	194	Mediastinum	239
Palate	194	Boundaries of lungs and pleurae	240
Tongue	194	Urinary system	242
Dentition	197	Kidneys	242
Teeth	198	<i>Gross Anatomy of the Kidneys</i>	242
<i>Parts and Structure of the Teeth</i>	199	<i>Gross Vasculature and Nerve Supply</i>	244
<i>Dental formula</i>	199	<i>Microscopic Anatomy of the Kidneys</i>	245
<i>Tooth Structure</i>	200	Ureters	248
Salivary Glands	201	<i>Gross Anatomy of the Ureters</i>	248
Pharynx	201	<i>Microscopic Anatomy of the Ureters</i>	249
Esophagus	203	Urinary Bladder	249
Stomach	204	<i>Gross Anatomy of the Urinary Bladder</i>	249
<i>Vessels and Nerves of the Stomach</i>	207	<i>Microscopic Anatomy of the Urinary Bladder</i>	250
Small Intestine	209	Urethra	250
<i>Histology of the Wall</i>	210	<i>The urinary system throughout life</i>	251
Large Intestine	211	Genital systems	253
Rectum	213	Male genital system	253
<i>Anal Canal</i>	214	Testicle	254
<i>Microscopic Anatomy of the Large Intestine</i>	215	Epididymis	254
Functions of the gastrointestinal organs	215	Ductus deferens	254
Anatomy of the accessory organs		Spermatic cord	254
of alimentary canal	216	Prostate	255
<i>Liver</i>	216	Seminal vesicles	255
<i>Microscopic Anatomy of the Liver</i>	217	Bulbourethral gland	255
Gallbladder	219	Scrotum	255
<i>Microscopic Anatomy of the Gallbladder</i>	219	Penis	256
Pancreas	220	Masculine urethra	258
<i>Nerves and Vessels of the Pancreas</i>	220	Female genital system	259
<i>Microscopic Anatomy of the Pancreas</i>	220	Ovary	260
The digestive system throughout life	221	Uterine tube	260
<i>The Digestive System in Later Life</i>	221	Uterus	261
Respiratory system	223	Vagina	261
Nose	223	Female pudenda area	261
<i>Nasal Cavity</i>	224	Minor pudendal labia	261
<i>Nasal Conchae</i>	226	Clitoris	261
<i>Paranasal Sinuses</i>	226	Vestibule vagina	261
Pharynx	226	Perineum	261
Larynx	227	Fascia of pelvic area	262
<i>Voice Production</i>	229	Endocrine system	265
<i>Sphincter Functions of the Larynx</i>	230	Endocrine organs	265
<i>Innervation of the Larynx</i>	230	Hormones	265
Trachea	230	<i>Classes of Hormones</i>	265
<i>Microscopic Anatomy of the Trachea</i>	231	Major endocrine organs	266
Bronchi	231	<i>Pituitary gland</i>	266
<i>Microscopic Anatomy of the Bronchi</i>	231	<i>Thyroid glands</i>	269
<i>Respiratory Zone</i>	232	<i>Adrenal (Suprarenal) Glands</i>	271
Lungs and Pleurae	233	<i>Pineal Gland</i>	273
<i>Gross Anatomy of the Lungs</i>	233		

Pancreas	274
Thymus	274
Gonads	274
Paraganglia	275
Other endocrine structures	275
The endocrine system throughout life	276

LYMPHATIC AND IMMUNE SYSTEMS

Lymphatic system	278
Lymph Trunks	280
Lymph Ducts	280
Immune system	281
Lymphocytes	281
Lymphoid Tissue	282
Lymphoid Organs	283
Disorders of the lymphatic and immune systems	286
The lymphatic and immune systems throughout life	286

SENSE ORGANS

Chemical senses: taste and smell	289
Taste (Gustation)	289
Smell (Olfaction)	290
Disorders of the Chemical Senses	291
Eye and vision	292
Accessory Structures of the Eye	292
Anatomy of the Eyeball	296
Internal Chambers and Fluids	298
Eye as an Optical Device	298
Visual Pathways	299
Disorders of the Eye and Vision	300
Embryonic Development of the Eye	301
Ear: hearing and equilibrium	302
External Ear	302
Middle Ear	303
Internal Ear	304
Auditory and Equilibrium Pathways	307
Disorders of Equilibrium and Hearing	308
Embryonic Development of the Ear	308
The special senses throughout life	309

INTEGUMENT

Skin	312
Epidermis	313
Layers of the Epidermis	313
Dermis	314
Hypodermis	316
Skin Color	316

Appendages of the skin	317
Nail	317
Hair and Hair Follicles	318
The skin throughout life	321
Breast	322

NERVOUS SYSTEM

Functional organization of the nervous system	324
Functions of the Nervous System	324
Basic Divisions of the Nervous System	324
Nervous tissue	325
Neuron	325
Cell Body	325
Neuron Processes	325
Synapses	326
Classification of Neurons	327
Supporting Cells	327
Gross anatomy of the nervous system	330
Nerves	330
Gray and White Matter of the CNS	330
Integration Between the PNS and CNS	330
Reflex Arcs	331
Nervous system	333
Central nervous system. Spinal cord	334
White Matter of the Spinal Cord	335
Gray Matter of the Spinal Cord and Spinal Roots	336
Meninges	338
Cerebrospinal Fluid	341
Central nervous system. Brain	342
Embryonic Development of the Brain	342
Gross Anatomy of the Brain	343
Ventricles of the Brain	344
Brainstem	344
Medulla Oblongata	346
Pons	346
Midbrain	349
Cerebellum	349
Diencephalon	353
Isthmus rhombencephali	355
Cerebrum	356
Motor Areas	363
Cerebral White Matter	363
Deep Gray Matter of the Cerebrum	364
Functional Brain Systems	364
Autonomic nervous system	369
Sympathetic (thoracolumbar) division	369
Parasympathetic (craniosacral) division	372

The peripheral part of the nervous system 375

Animal, or somatic, nerves	375
<i>Olfactory nerve (I)</i>	375
<i>Optic nerve (II)</i>	375
<i>Oculomotor nerve (III)</i>	376
<i>Trochlear nerve (IV)</i>	377
<i>Trigeminal nerve (V)</i>	377
<i>Abducens nerve (VI)</i>	379
<i>Facial nerve (VII)</i>	379
<i>Vestibulocochlear nerve (VIII)</i>	380
<i>Glossopharyngeal nerve (IX)</i>	381
<i>Vagus nerve (X)</i>	381
<i>Accessory nerve (XI)</i>	383
<i>Hypoglossal nerve (XII)</i>	384
Spinal nerves	385
<i>Cervical Plexus</i>	387
<i>Brachial plexus</i>	388
<i>Intercostal nerves</i>	392
<i>Lumbosacral plexus</i>	392
<i>Coccygeal Plexus</i>	397

CARDIOVASCULAR SYSTEM

Heart 401

Topography of the Heart	401
Pericardium	401
Layers of the Heart Wall	401
Heart Chambers	403
<i>Right Atrium</i>	403
<i>Right Ventricle</i>	403
<i>Left Atrium</i>	403
<i>Left Ventricle</i>	404
Heart valves	404
<i>Valve Function</i>	405
<i>Heart Sounds</i>	405
Pathway of blood through the heart	406
Cardiac muscle tissue	406
Conducting system and innervation	407
<i>Conducting System</i>	407
<i>Innervation</i>	409
Blood supply to the heart	409
Disorders of the heart	409
<i>Coronary Artery Disease</i>	409
<i>Heart Failure</i>	410
<i>Disorders of the Conduction System</i>	410

Arterial blood vessels 412

Aorta	412
<i>Branches of the descending aorta</i>	413
<i>Common carotid artery</i>	413
<i>Subclavian Artery</i>	416
<i>Axillary Artery</i>	418
<i>Brachial Artery</i>	420
<i>Radial Artery</i>	420
<i>Ulnar Artery</i>	423
Branches of the thoracic aorta	424
Branches of the abdominal aorta	426
<i>Unpaired Visceral Branches</i>	426
<i>Paired Visceral Branches</i>	429
<i>Parietal Branches of the Abdominal Aorta</i>	430
<i>Common iliac artery</i>	430
<i>Arteries of the Foot</i>	438

Venous blood vessels 443

System of superior vena cava	443
System of vena cava inferior	446
Portal vein	449
<i>Splenic Vein</i>	449
<i>Mesenteric Veins</i>	449
Common iliac veins	449
<i>Internal Iliac Vein</i>	450
Portocaval and cavacaval anastomoses	454

LYMPHATIC TISSUE, VESSELS & NODES

Lymphoid tissue 458

<i>Functions</i>	458
Lymphatic Capillaries	458
Lymphatic Vessels	459
Lymphatic Nodes	459
Lymphatics of the Head, Face and Neck	462
Lymphatics of the Upper Extremity	464
Lymphatics of the Lower Extremity	464
Lymphatics of the Pelvis	465
Lymphatics of the Abdomen	465
Lymphatic Vessels of the Thorax	468
